**MEDITATION THOUGHTS**

Theme: Jesus Amazes and Astounds  
Scripture: Mark I: 21-28

As Jesus went around the countryside healing and casting out devils, you can just imagine the attention that surrounded Him.

The word spread quickly and widely about what He was doing. And yet, there were those who did not believe that He could do that. Even with the testimonies of those who were healed, they still didn't believe that He could do that.

We can only imagine what we would think if someone did all of those things right here and now. And yet, people are being healed on a daily basis right under our noses.

Every time someone comes to Jesus, He heals them. Every time someone is baptized, they are healed. Yet, we don't really take that into account, do we? We take for granted that people are forgiven of their sins when they are baptized and that the Holy Spirit rests upon them when they are confirmed.

Jesus continues to astound and amaze people with His love and compassion. If you are a crumb donor and you get the newsletter from there, you know that He is working very hard today. As He heals the souls of those who will allow Him in, He continues to astound and amaze those who seek Him. Let us help Him in His work.
